

## **Heavy Duty Trackers -**

**for about the same price as  
conventional, fixed Top of  
Pole Mounts!**

A new solution for mounting PV - a rack compatible with any brand of framed panel, sized for a standard 6" pipe base.

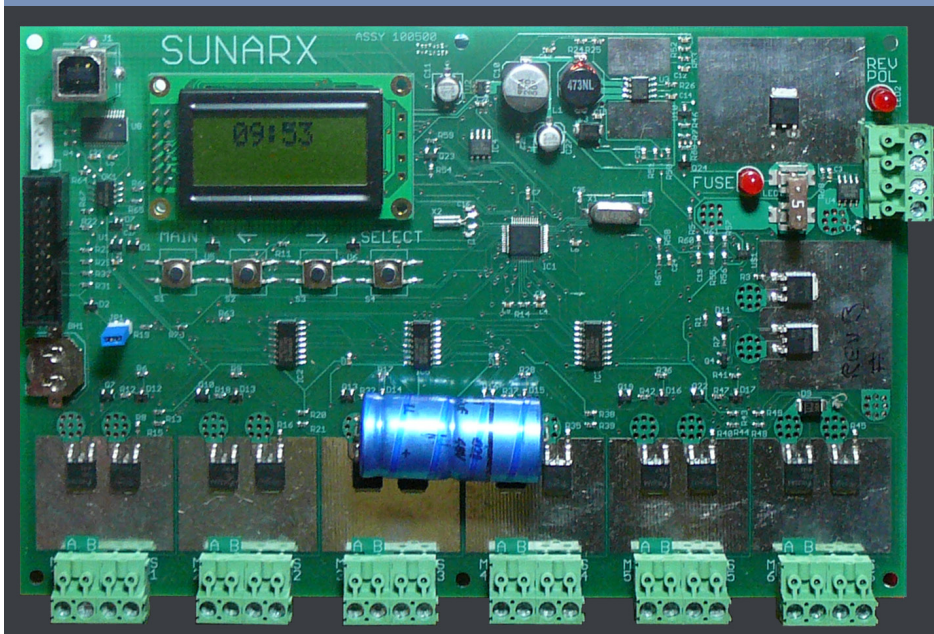

Steel main frame and large aluminum extrusions create a solid frame with a 90mph wind rating.

Clock-based control board follows the sun without light sensors. Up to 6 trackers can be controlled with one control board.

# Features:

- 1600 - 2200 W per tracker, depending on module
- Fast assembly
- Short lead time
- Made in USA - frame, actuator, and control board
- Single axis tracking ("Tilt and Roll") with easy seasonal adjustment
- 10 year warranty on frame, 5 year warranty on actuator
- AC, DC, or standalone power supply for control board
- 30% increased production in sunny areas
- Many built in protections on control board
- Actuator attached with pins - cannot loosen
- Optional grounding kit and extra-flexible PV output extension wires
- Low power consumption - 50Wh per day
